

## General Description

The cardioid e 935 is a fully professional vocal microphone, developed to cut through high on-stage levels.

## Features

- Rugged metal body
- Advanced shock-mount design
- Consistent on-/off-axis response
- Hum compensating coil
- Delivery includes a pouch and a microphone clamp

## Technical Data

|                                    |                                               |
|------------------------------------|-----------------------------------------------|
| Pick-up pattern .....              | cardioid                                      |
| Frequency response .....           | 40 – 18,000 Hz                                |
| Sensitivity                        |                                               |
| (free field, no load, 1 kHz) ..... | 2.8 mV/Pa at 1 kHz =<br>-51 dB (0 dB = 1V/Pa) |
| Nominal impedance .....            | 350 Ω                                         |
| Min. terminating impedance .....   | 1 kΩ                                          |
| Dimensions .....                   | 47 x 181 mm                                   |
| Weight .....                       | 330 g                                         |

## Profile

Cardioid professional vocal microphone, hum compensating coil, frequency response 40 – 18,000 Hz, sensitivity (free field, no load) 2.8 mV/Pa at 1 kHz = -51 dB (0 dB = 1V/Pa), nominal impedance 350 Ω, min. terminating impedance 1 kΩ, dimensions 47 x 181 mm, weight 330 g.
